

DHOOM SINGH MEMORIAL PUBLIC SCHOOL

(An English Medium Co-Education Senior Secondary School
Affiliated to C.B.S.E., New Delhi)

Prospectus

Growth, by all practical means, becomes evident only when a sapling is nurtured well and taken care of when an appropriate time comes. This is what Dhoom Singh Memorial Public School has been established for. The young buds are nurtured and brought up in a friendly educational environment with guidance year after years.

Life at DSM is not just about academic brilliance but its greatest strength is the sense of community. Our students value learning, respect each other and appreciate the skill and expertise of their teachers. In this supportive environment we give young people the chance, to develop the skills, self-confidence and maturity, they will require in their future life.

We aim to give each child the best possible start and give them the confidence to believe in themselves. We promote a sense of personal responsibility based on the values of truth, justice and compassion. DSM Public School welcomes children of all faiths and endeavour to ensure that the cultural and religious difference with in our school community are recognized and respected.

Our teachers are greatest asset. The vibrancy of our programs attracts highly qualified and aspiring new teachers to our school. These students are fortunate to be mentored by a core of experienced teachers who have been responsible for the school's significant growth and success over the past decade.

At DSM Public School, our vision and direction is guided by the school values of excellence, persistence, responsibility, achievement and teamwork. Our mission is for all the students to live these values, achieve their full potential and have a successful pathway beyond our school. We pride over ourselves on the care and development of young people with positive personal values and a strong sense of social responsibility.

Shri K.P.S. Chauhan
Chairman

'Success is not the key to happiness. Happiness is the key to success. If you love what you are doing, you will be successful.'

Dreaming is a wonderful thing. Dream with your eyes wide open!

Since successful people dream a lot, they also spend a lot of their time working hard and developing skills which lead to success!

In the new millennium one needs to change the way one looks at the routine matters of the day. When fresh ideas and thoughts surface, the school as an educational institution benefits immensely. Let us transcend from the 'copy paste' generation to 'create' generation! This will foster belief in our self-worth.

Academics are the route through which success is achieved. Books are a storehouse of years and years of wisdom. Befriend the books and you will never be lonely. Focus on developing your personality. Your school will provide you numerous platforms for personality development, therefore tap the opportunities provided to you!

Shri Mukul Kumar
Director

As the Principal of the school, I feel honoured and privileged to be part of an educational institution where every stakeholder is a learner and every day is an opportunity to learn and discover. We look at ourselves as a community of learners, where everyone learns including our teachers, parents & staff.

I believe in upholding high standards with an absolute commitment to strive to understand and improve the educational process, using team strategies, while wholly centering on student achievement.

Our staff fruitfully employs two diverse strategies that are of Love and Logic to foster a positive learning environment for all our students. Love and Logic may seem like two contrasting forces. While love helps nurture trusting relationships, where students feel respected, appreciated and loved by the teachers, logic helps develop in students personal responsibility, self control, good decision making skills self confidence, and character building with high moral values.

Your child's learning involves and revolves around an effective partnership between home & school. We know the stronger the partnership is the more your child will benefit.

Whilst we know that the information here will give you answers to some of your questions, we also know that learning is social, and in this context we encourage you to come and speak to us in person for a more detailed perspective. I look forward to working with you as we help create a school where parents are welcome at anytime, students are engaged in meaningful learning and the staff members are valued and appreciated for their efforts.

Smt. Sadhana Bhatia
Principal

Neet Selection

Manav Verma , Student of our school of Batch 2020-21 has qualified NEET Exam -2022.

He has scored 611 marks out of 720 and secured 116th Rank in Uttarakhand and 22623rd Rank in India.

Manav had not joined any coaching for preparation of NEET, but he has achieved all this because of pure hard work, strong will power and a strong desire to do something big in life. Manav's Father is running a small shop and Mother is a housewife.

He is an inspiration for many students and specially for those who think that they cannot qualify NEET, JEE and other exams without a Coaching.

We Congratulate him and wish him a wonderful life ahead.

Coding Lab

"Most Students won't grow up to become professional computer scientists or programmers, but those skills of thinking creatively, reasoning systematically, working collaboratively ... are things that Students can use no matter what they're doing in their work lives."

Coding is one of the most indispensable skills in the 21st century. Learning how to code at school makes a student well-versed in technology. Also, it makes them capable of using safe internet and digital ethics.

Because learning to code involves logic, problem-solving, back wards planning, and other broadly applicable thinking skills.

Keeping this in mind we have established a fully functional Coding Lab and Our School is the only school in Haridwar to have a Coding Lab.

Math Lab

Mathematics lab is an area where students learn and enjoy mathematics through shapes, patterns, board games etc. In a Mathematics Laboratory, students would get hands-on experience to understand the basic concepts of mathematics and scope for new innovations. It helps in making clear and in understanding abstract concepts. It enables the students to apply the learnings of mathematical facts and principles in an actual life.

Cultural Events & Activities

Cultural activities are non-academic pursuits that provide students a platform to explore their interests and develop aesthetically, artistically, historically, intellectually, or socially. Different types of activities are carried out in school, such as sports, dance, music and festival celebrations are important for the overall development of the children.

Participation in cultural activities improves the overall academic performance of students. These activities help students refresh their minds and boost brain function, leading to better concentration and higher grades. Additionally, cultural activities promote creativity and enhance learning skills.

Olympiad

Olympiad Exams are an excellent platform to hone the learning process of students. As students prepare themselves to compete in such exams the quality of hard work and thinking process also gets amplified.

Every year we conduct Olympiad exams in collaboration with Silver Zone Foundation from Class 1st onwards.

Investiture Ceremony

Investiture ceremonies in schools are more than just formal events. They serve as a platform for recognizing and empowering young leaders, instilling a sense of responsibility, and nurturing their potential for the betterment of society. These ceremonies hold immense importance in shaping the character, values, and leadership qualities of students.

Drawing Competition

Drawing competitions are an excellent platform for young minds to showcase their artistic skills, express their creativity and imagination, and develop essential life skills. Such competitions not only provide an opportunity for children to exhibit their artwork but also help them gain valuable experience, recognition, and appreciation for their efforts.

Fancy Dress Competition

Fancy Dress Competitions are an integral part of school events, balancing the rigorous academics with a lively celebration of creativity, spontaneity, and imagination. These events not only provide children with a platform to embrace the joy of play-acting, but they also instill a sense of confidence and stage presence.

Inter School Competition

Interschool competitions provide an invaluable platform for children to showcase their talents, skills, and abilities. These events offer much more than mere contests, they develop student's personal growth, skill development, and a sense of accomplishment.

Robotics lab

A robotics lab in a school is a hands-on learning space where students build, program, and test robots using kits, computers, and software, integrating STEM (Science, Technology, Engineering, Math) concepts with practical application to develop crucial 21st-century skills like coding, problem-solving, and critical thinking for future tech careers, often guided by structured curriculum.

BIS Club Activity

“Children are the architects of a strong, vibrant, and dynamic India. Our School in Collaboration with Bureau of Indian Standards (BIS) has established a Standards Club with an objective to sensitize young members of society about the importance of standards in improving quality of life. This innovative Endeavour aims to instill in young minds the paramount importance of quality, standards, and generating scientific temperament.

The student members of the Standards club engage in a variety of activities, like:

Standards writing competitions

Quiz competitions

Debates, essay writing and poster making

Exposure visits to laboratories & Industrial units and more.

Sports

Play Lab

Spell Bee

Blood Donation Camp

Story Telling

Sansad Khel Mahotsav

Quiz Competition

Educational Trip

Earth Day

Yog & Slok Competition
